

2-Day Hands-on Training Program on Circular Dichroism Spectrophotometer & Photoacoustic Imaging Platform 22nd – 23rd September, 2023

**Organized by: Sophisticated Analytical & Technical Help Institute (SATHI)
Banaras Hindu University**

Training Highlights:

1. Introduction to Circular Dichroism Spectrophotometer & Photoacoustic Imaging Platform and its application in various disciplines of Science, Engineering & Technology.
2. Working principle of Circular Dichroism Spectrophotometer & Photoacoustic Imaging Platform and sample preparation.
3. Live demo / Hands-on Training on Circular Dichroism Spectrophotometer & Photoacoustic Imaging Platform.
4. Data Acquisition & Data Processing.
5. Basic instrumentation and Safety Protocols.

Who should attend:

Faculty/Researcher/Scientist/Industry personnel/PG Student from fields of Science, Engineering, Technology, Biotechnology, Biology, Bio-Chemistry, Zoology, Physics, Agriculture Sciences, Food Sciences, Chemistry, Biological Sciences, Pharmaceuticals, Pharmaceutical Chemistry, Pharmacology and Pharmacognosy or any relevant area.

Resource Persons:

Prof. Abhijit Mondal

Department of Radiotherapy
& Radiation Medicine,
Institute of Medical Sciences
Banaras Hindu University

Dr. Samarendra K Singh

School of Biotechnology
Institute of Science
Banaras Hindu University

➤ **Registration Fee: Rs. 2000 + 18% GST**

➤ **Registration link:**
